

## Kindle Fire Installation

Use these instructions to download and install the cloudLibrary™ by bibliotheca app on your Kindle Fire. This process requires Kindle 2nd generation and higher.

The Kindle app will **NOT** notify you of system updates. To get the latest version, uninstall and reinstall the app using the instructions below:

**First, enabled your Kindle for apps from “unknown sources”.**

### Kindle Fire

1. Go to the settings menu by tapping the gear icon at the top (Some Kindles you will have to swipe down from the top of the screen to get the **Quick Settings** menu and tap **More.**)
2. Choose **Device** (on some Kindles you will have to choose Settings then Device.
3. Tap on the option to **Allow installation of Applications from Unknown Sources to “on”.**

### Kindle HD

1. Swipe down from the top of the screen. This pulls up the **Quick Settings** menu.
2. Tap **More.**
3. Choose **Settings** then **Device.** On some Kindle Fires, you will need to go to **Applications.**
4. Tap on the option to turn on **Allow Installation of Applications from Unknown Sources.**

**You are now ready to download and install the cloudLibrary app.**  
**Please use the Silk browser on your Kindle to complete the following steps:**

1. Tap on the Silk browser icon and navigate to [yourcloudLibrary.com](http://yourcloudLibrary.com)

2. Navigate to the Kindle Fire icon
3. Tap the button below to **download the Kindle Fire App file**.
4. Tap **Confirm** to the download prompt.
5. Tap **Download complete**. If prompt disappears, navigate to the Silk browser's menu in the upper left hand corner, tap the **Downloads** folder and then tap the MMMCloudLibrary file to begin installation.

*Note: Some versions of the Silk browser have issues getting the installation to begin. If you tap on the file and installation does not start please update the operating system on your device to version Fire OS 5.1.1*

6. When asked "Do you want to install this application?" **tap Install**.
7. When the app installed screen appears, tap **Done**.
8. Tap on the **Home** icon. If the cloudLibrary app isn't on your home screen go to "Apps"
9. Tap on the cloudLibrary icon to open the app. Perform the following steps inside the app:
  - a. Tap the screen and then tap the "Connect to Your Library" button.
  - b. Select your **Country** from the drop down and then choose your **State**.
  - c. Select your **Library** from the list.
  - d. Enter your **Library id and pin** if required and tap log in.

**Installation is complete. You are ready to use the cloudLibrary.**
